

Quality- and Environmental Policy

- The establishment of a long-term relationship with our customers is of great importance.
- We strictly comply with all legal requirements, normative requirements and customer requirements.
- We actively promote the advancement of our employees through further education and training courses.
- A distinct process orientation enables us to work efficiently, quality- and cost-oriented.
- Our employees have a high level of quality and environmental awareness. We support their further development.
- We work together with our suppliers on a basis of trust.
- We are always interested in innovative solutions and are therefore looking for improvements in all business areas.
- Our decisions are based on the analysis of data and information.
- We review the life cycle of products and derive improvements where necessary. The environmental aspect analysis helps us to identify possible environmental impacts.
